Airports have been relatively neglected in scholarly planning literature despite their historic role in shaping metropolitan form. Their transformation into major mixed-use urban nodes anchoring subregional realms of aviation-oriented development has underscored their significance as agents of and products of globalization. Reviewing the trends ...

## **Spatial Planning Models of Airport-Driven Urban ...**

Urban geography deals both with cities in their larger context and with their internal structure. Site. Town siting has varied through history according to natural, technological, economic, and military contexts.
