Sam Fox School of Design & Visual Arts. The Sam Fox School of Design & Visual Arts is a unique collaboration in architecture, art and design education, linking professional studio programs with one of the country's finest university art museums in the context of an internationally recognized research university.

College of Architecture | Washington University in St. Louis

The architecture of Finland has a history spanning over 800 years, and while up until the modern era the architecture was strongly influenced by currents from Finland's two respective neighbouring ruling nations, Sweden and Russia, from the early 19th century onwards influences came directly from further afield; first when itinerant foreign ...

Architecture of Finland - Wikipedia

Award brief Scope. Daylight in architecture is an ever-relevant topic. Daylight has been used for centuries as the primary source of light for the interior and architects have always been interested in and fascinated by daylight; yet daylighting can be a difficult discipline to approach, understand and master.

Award brief - International VELUX Award 2018

A robotic spacecraft is an uncrewed spacecraft, usually under telerobotic control. A robotic spacecraft designed to make scientific research measurements is often called a space probe.

Robotic spacecraft - Wikipedia

Deriving meaning in a time of chaos: The intersection between chaos engineering and observability. Crystal Hirschorn discusses how organizations can benefit from combining established tech practices with incident planning, post-mortem-driven development, chaos engineering, and observability.
